Fundraising

Two common desires for organizations like yours are to strengthen donor relationships and streamline the donation process. The idea is to engage donors so they will not only return, but also be inspired to give. Digizent offers simple yet compelling campaigns, with clear calls to action that lead to increased engagement and donations.

Bring email to life

One very effective way to get immediate attention is through responsive email. Digizent brings strategic, creative, and technical experience that most providers cannot.

We pioneered responsive email design and deployment for nonprofits and build more than 10,000 responsive emails a year — not just for Outlook and Gmail, but for every popular email client in the market. Our expertise extends to more than 20 development platforms!

Be seen ... a lot!

Additionally, Digizent can build your campaign's social presence. From Facebook to Google to all types of paid media, Digizent offers innovative placement solutions you want and need.

We also support you with comprehensive Open Graph tagging and campaigns that spur real growth and reach.

“

With the bump we saw on Giving Tuesday, we are seeing roughly a 70% increase in online revenue growth fiscal year to date as well as 60% growth in the gift count. This is most encouraging! Thank you Digizent — you and your wonderful staff are a great blessing to us!
