Giving Forms

More donors. More gifts. More money for missional impact.

With FlexFormz you can increase conversion rates, provide more giving options, integrate with your existing databases or CRM, get easy reporting and management, highly customize each form and page, and much, much more.

Welcome to more with

Better conversion means more

FlexFormz has been built on decades of usability studies. Our goal is reduce form abandonment and increase conversion, leading to an overall better user experience.

More donations through contextual giving

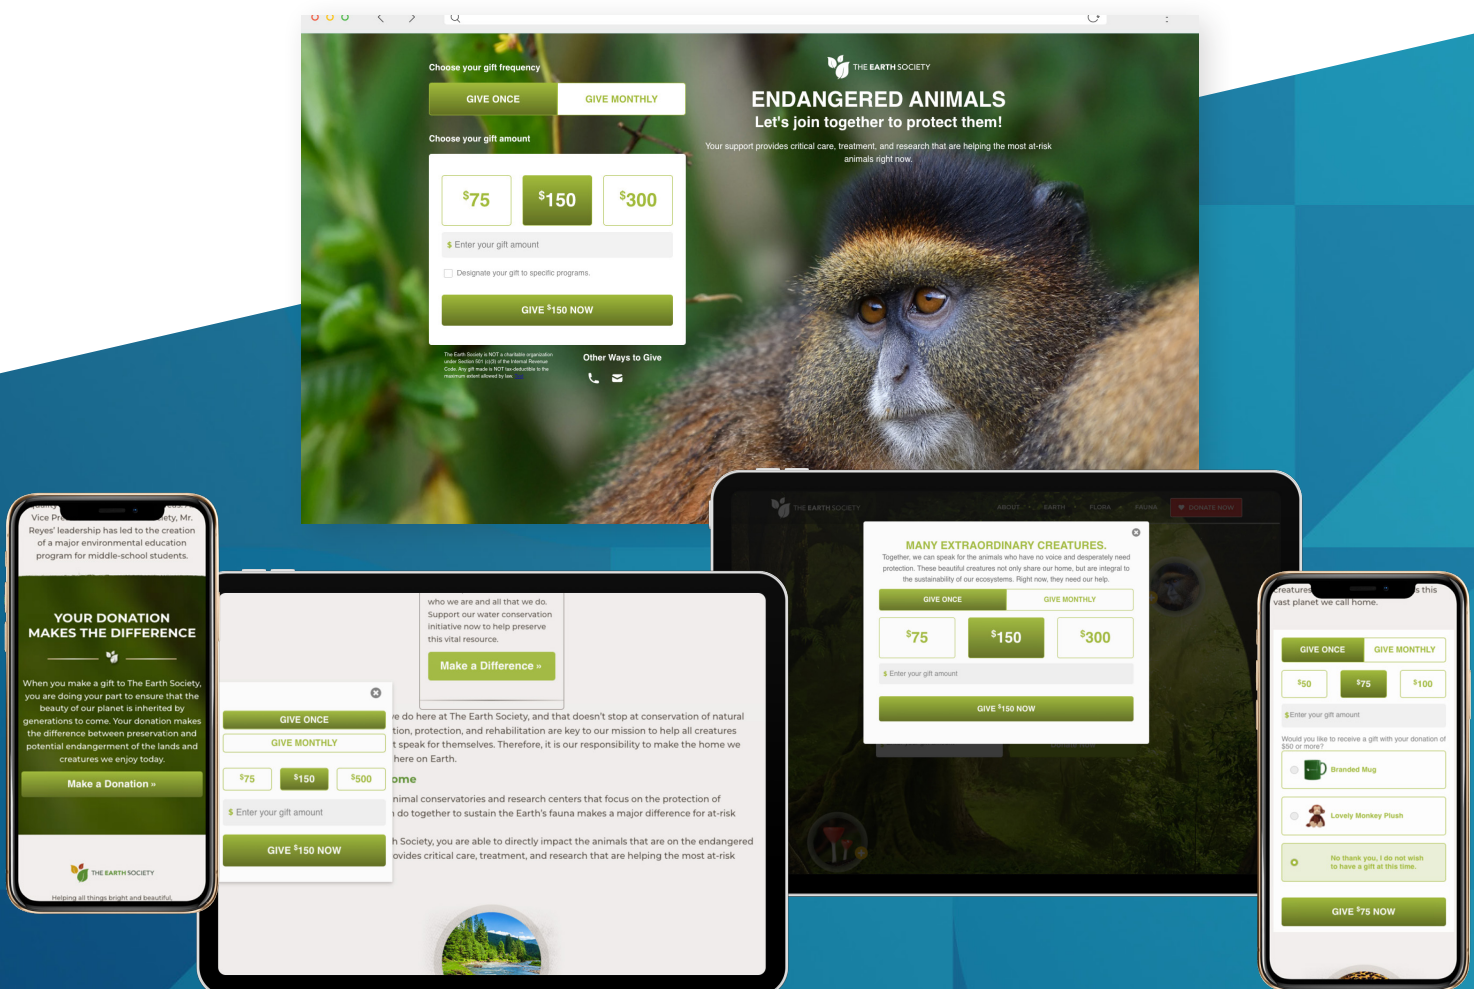

A FlexFormz can be placed anywhere on your WordPress website, offering your donors the chance to give within the context of what they are reading or responding to without ever leaving the page and cutting abandonment dramatically.

More impact with custom and easy to build forms

FlexFormz are built with a state-of-the-art WordPress plugin that makes it easy to add and customize forms. If you know how to use WordPress, you know how to use FlexFormz.

More control without commitments

FlexFormz have NO setup fees, NO monthly fees, NO annual fees. The only fees that apply are a result of your nonprofit organization generating more revenue with FlexFormz.

Doing good™ for you

Your strategy, program, and technology landscape is constantly changing and shifting in this age of digital everything. Digizent and FlexFormz walk with you, providing innovative solutions to help you succeed in a digital world. We will help you create experiences for your audience that are engaging, strategic and inspiring, but more importantly, that generate results to further your mission.

The Digizent team is truly international, with design, project management, and technical teams working out of our Puebla, Mexico office. Strategic and creative direction, along with copywriting, are provided by our Dallas-Fort Worth Metroplex-based team.

We discovered Digizent FlexFormz solution in the 12th hour as we were about to make a key decision between two options to improve our online giving platform and thinking we were headed toward “build our own.” However, once we saw the demo for FlexFormz, the decision couldn’t have been easier. Integration went smoothly into our current CRM. Extra things we needed were carefully reviewed, defined, and implemented. The Digizent team’s creativity, testing, quality checks, implementation, ongoing support, and affordable costs have exceeded our needs and expectations. Their service has been so good we asked them to do our website makeover as well. We have no reservations in highly recommending the Digizent team and FlexFormz for your digital needs.
